

# “Campus recruitment Report”

Date :-1/3/2019

On 3<sup>rd</sup> February, 2019 Campus Placement for the students of B. Vocation (Medical Equipment Techniques and Managements) and Post Graduate Diploma in Biomedical Electronics had been arranged in the department of Electronics of Brijlal Biyani Science college. The Amigo Medical Devices, Pune represents international brands Mindray for sales and services. The Company wanted to place students for the required vacancies in their company. All the students of B.Voc and P.G. Diploma got information about the same before a week through college notice board as well as verbal instructions were given by the Nodal officer Prof and Head of the Electronics department Dr. D.S. Dhote sir. On 3<sup>rd</sup> February all students gathered in the Electronics lab at sharp 9.00 o'clock in the morning for the same. All the faculties of B.Voc and PGDBME were present to cooperate the Campus Drive held in the college. They made everything up to the mark. By 10:00 am Mr. Shubhang Burde, The Chairman Of Amigo Device Pvt. Ltd arrived to the department along with Dr. D.S. Dhote sir and welcomed by the college staff with flowers and good wishes. Prof J.P.Kundwani hosted the auspicious occasion. She made everyone enthusiastic with her mesmerism word. Also she introduced Mr. Shubhang Burde as the guest of honor and requested Dr. D.S. Dhote to give his brief introduction. Dr. D.S.Dhote gave a wonderful introduction of him and thanked him for coming so long all the way from Pune. Then, Miss Kundwani requested Mr. Shubang Burde to take the podium.

He introduced himself first and shared his thirty years journey in the field of Biomedical Engineering. He had a short presentation over opportunities in the field of Biomedical. He told us about the past conditions and future prospectus of Biomedical. He gave a brief idea about pursuing Post Graduation in the same. He differentiated hospital and industry. He told us about the work difference in hospital and industry. Then he delivered

seminar on medical devices and informed us about the wear and tear of many equipment, precautions, maintenance and taking care of them. Then, he told students about carrier prospectus, growth curve, job opportunities, etc. He then told us about his company, gave us an idea about the job for which we were going to be placed. He explained us about sales engineer application engineer and service engineer. He asked many questions to students. The session was quite interesting because of its instructiveness. Then he concluded the session with warm regards and best wishes for student's bright future. Dr.D.S.Dhote sir admired him for his lecture and requested to move on towards the interview session.

After a tea break the interview had started in the chamber of Dr. D. S. Dhote sir. Mr. Shubhag Burde conducted the interview by calling students one after another all the students were interviewed. Question on their background, skills were asked by the recruiter. After the interview session all the students were excited to know the results. He entered the lab again and admired all the students for their presentation. He praised for communication skills of students and their etiquettes. Out of all six students were selected in the campus placement. It was such a great experience and a great opportunity for all students. It costs an arm and a leg to get such type of opportunity.

Six students were short listed by the Director of Amigo Mr. Shubhag Burde .Overall experiences and feedback of the Amigo was very positive as the need of their organization to search the right talent to drive its objectives is fulfilled by our students. Students are also happy because they know that working with Amigo is the right environment to grow and achieve their carrier goals.

Our principal Dr. N. G. Belsare supported in every aspect for successful conduction of this drive and Quoted and program how such program were essential for boosting the confidences of students.
